This wiki shall be the place to go, when you are looking for information about our teaching observatory – the **OST** (**O**ur **S**mall **T**elescope or **O**verwhelmingly **S**mall **T**elescope) - and the astrophysical laboratory course. You can find here information about the technology and the handling of our telescopes. Furthermore, we provide information about data reduction and organizational matters of our laboratory courses. Since such a wiki will never be finished, we have of course also a [To Do list](#).
