Welcome to the OST Wiki

This wiki is the place to go when you're looking for information about our teaching observatory — the **OST** (**O**ur **S**mall **T**elescope, occasionally teasingly called the **O**verwhelmingly **S**mall **T**elescope) — and the astrophysical laboratory course. Here you'll find information about the technology and handling of our telescopes, as well as data reduction and organizational matters for the lab courses.

Since a wiki is never really finished, we of course also keep a [To Do list](#).
